Facts and Features

Mellotone FR Fabrics are woven entirely of synthetic yarns, including inherently flame-resistant monofilament and modacrylic yarns.

FR Fabrics assure these advantages.

- Unobstructed, distortion-free passage of sound.
- Flame-resistant; dust-resistant, mildew-proof.
- Class A flame spread rating.
- Minimal fading.
- True, uniform pattern lines.
- Fast, easy cleaning with vacuum or damp cloth.
- High tensile strength of individual fabric that will not sag or buckle when properly installed.
- Quick, neat installation.

Uses and Applications

The acoustical qualities of Mellotone FR Fabrics make them uniquely suitable for a wide variety of design applications.

These include:

Architectural:

- Leading architects specify:
- For walls or organ lofts in churches, theatres and auditoriums.
 - To emphasize wall areas; to coordinate interiors; or as a background fabric.

Manufacturing:

Mellotone FR Fabrics are standard equipment for O.E.M. manufacturers of:

- High fidelity equipment.
- Television sets.
- Pianos and organs.

Audiophile:

FR Fabrics are sound transparent and are ideal for redecorating existing equipment.
